

## Outsourcing Redefined: High Quality & True Partnership

- 11+ years in custom software development
- 35+ complex projects implemented

Utilizing its **Outsourcing Redefined** approach Altacode has overcome “low-cost & pure coding” outsourcing stereotype, emphasizing its high quality, full-cycle software engineering and true partnership approaches.

## Company Background

**Altacode LLC**, [www.altacode.com](http://www.altacode.com) is a full service custom software development company that provides customized web, mobile and desktop application development services, backed up with comprehensive quality assurance, advanced technical support, and system maintenance.

Founded in 2006 with a small and talented team, Altacode has become a reputable player in Armenian IT sector providing wide range of services to its partners. Over the years we have been working with select clients from US, Europe and Armenia on multi-year engagements.

We are experienced in development of analytical and reporting tools, management information systems, content management systems, web portals, e-commerce solutions, GPS tracking systems, mobile apps. We specialize in serving the following markets: finance, insurance, human resources, transportation, and mobile.

Our client base includes such reputable companies like **WilliamO'Neil+Co, Smart Systems, Nobel Systems, Accucom Corp, allAware Inc., DProduceMan, Cybervore, YappaTech, CVManagement, Chobanian Group, K5 Investment Group, Vivacell-MTS Armenia, Good Credit, Prime Insurance, RA Ministry of Labor and Social Affairs, “Nork” Information Analytical Center, USAID / Armenia, RA Central Bank.**

We have a very efficient operation which allows us to offer very competitive rates, on-schedule deliverables, while maintaining high standards of quality. Our expertise in custom software development and implementation combined with competent project management and dedicated support results in long-lasting and mutually beneficial relations with our clients.

As a **Microsoft Silver Certified Partner**, Altacode has demonstrated expertise with Microsoft technologies and a proven ability to meet customer needs.

Altacode is headquartered in Yerevan, Armenia with affiliate branch registered in California, US.

## Our Team

Altacode has a pool of experts including Software Architects and Developers, Business Analysts, Project Managers, Quality Assurance and Technical Support specialists.

We carry out the full cycle of custom application development, from concept design through technical support. This includes a comprehensive process of requirements gathering, system design and architecture, iterative development, quality assurance, documentation preparation, technical support and maintenance.

Our talented team of software engineers has a proven experience in design, development and implementation of integrated and multifaceted technical solutions. We are skilled in the latest programming languages and application architecture best practices. Our highly trained developers and architects are experienced in technologies and programming languages like .Net Framework, C#, ASP.NET, MSSQL, CSS3, HTML5, JavaScript, Angular JS, iOS, Android, Objective C, Windows Phone / Store, Office 365 Add-Ins, just to name a few.

## Our Offerings

We're ready to cooperate with **consulting companies** looking for affordable and reliable custom software development partners, any **IT-centric business** interested in outsourcing their development tasks, and **medium-large software development companies** willing to take advantage of establishing remote R&D and support centers.

## Projects

We have implemented more than 35 complex systems for our various clients from ground up or as enhancements to existing applications. The systems that we helped create vary in their scope and complexity. For the majority of our solutions we continue to provide advanced technical support, including enhancements and new feature development.
